

Region I COVID-19 Vaccine Equity and Disability Stakeholder Roundtable

Invitation: FEMA Region I COVID-19 Vaccine Equity & Disability Stakeholder Roundtable

Over the last year, FEMA Region I held virtual listening sessions to gather and address the disability community's questions and concerns during the COVID-19 response. We appreciated your participation as a leader in the community.

We are excited to announce the hosting of a roundtable with emergency management, public health and disability advocates throughout Region I. During the roundtable, the discussion will address questions and concerns individuals with disabilities, seniors and others with access and functional needs have about the COVID-19 vaccine. This will help ensure equity and that individuals have the information they need to make an informed decision.

The roundtable will be **Friday, March 19th from 2:00pm-3:30pm**. ASL and CART is provided. Please send questions or register by sending an email to kate.mccarthybarnett@fema.dhs.gov or call 617-816-6351.
